

*"More Than" Bingo is a Math game that correlates with common core standards for finding numbers more than or less than a given number*

*Materials*

*-Bingo game board (enough copies for each student in the class/center to have one)*

*-Dice (one die per student)*

*-Counters/Markers to cover up the spaces (or bingo sheets can be laminated or put into a clear protective sheet and students can use*

*dry erase markers to color in the spaces)*

*Directions*

*Each student will have a game board and they will need to roll a die and cover up the number that is either one more, two more, three more, etc. depending on the board that they have. When they cover up their entire board they can yell out BINGO!*
