

Phonics

Letters: x, k

Name: _____

HW

3

Fluency- Write all the letters on this page out of order. Time your child saying each sound. Repeat two more times and record time. Try to get faster each time.

Dictate the following sentences slowly to your child. Have him/her write each sentence neatly in their journals and draw a picture to match.

- "The red bug hid on the mat."
- "A big rat is in the jug."
- "The little fox is in the log."

Write one letter per index card. Use the cards to construct CVC words (consonant, vowel, consonant)
Write at least 8 words you created and draw a picture for each.

Handwriting practice lines consisting of four sets of three horizontal lines (top solid, middle dashed, bottom solid).

High Frequency Words

New HFW: which, or, your

Write all the words we have learned on index cards. Play memory with your child using these cards. Write a note telling us this is what you did, or take a picture!

Write 3 sentences with sight words. Make sure every sentence has at least one sight word in it. Underline or highlight the sight word.

Make up your own version of the poem, "Which is Your,," using the same structure but with new rhyming words.

Four sets of handwriting practice lines. Each set consists of a solid top line, a dashed middle line, and a solid bottom line.

Unit of Study

Write a story about your Halloween experience. If you can, think of a moment when you felt something strong (excited, scared, surprised, nervous, etc.). Be sure to include those juicy details so us readers can picture it in our minds! Draw a picture to match.

Math

More Shapes! Your child is responsible for knowing 5 flat shapes: circle, square, triangle, rectangle, hexagon.

Use stickers, pasta, q-tips or any other creative items you have in your house to build 3 different flat shapes. Glue them on your homework paper and number the sides.

Parents: Draw all five flat shapes on the homework page and quiz your child on their names. Then have your child circle the corners and number the sides. Let us know how they did!

Play memory matching with the five flat shapes and practice naming them. Draw each shape on two different note cards/papers and flip them over. Let us know who wins!
